
The Wisdom Fund, a nonprofit corporation established in 1995, endorses the September 11, MILLION AMERICAN MARCH (Against Politics of Fear) in Washington, DC.

Shortly after September 11, 2001, as I looked down on the Pentagon from a nearby hill, the first question I and other onlookers asked was, "Where's the plane?"

In April 2002, I expressed my reservations about the official account of what happened on September 11, 2001 in articles published at The Wisdom Fund website <http://www.twf.org>.

Over the next few years, following research worth about one-half million dollars, I wrote "9/11 Unveiled" -- available free in English, Arabic, Chinese at <http://www.twf.org/Library/911Unveiled.html>.

By definition, all explanations of 9/11 are conspiracy theories. The issue is whether or not a particular theory is supported by the facts. The facts do not support the official "conspiracy theory".

2000+ military, intelligence, industry professionals do not believe the official account of 9/11 -- <http://www.twf.org/News/Y2011/0911-Muslims.html>, and are asking that the 9/11 investigation be reopened.

The Wisdom Fund has presented hard evidence contradicting the official account to the Chairman, The 9/11 Commission, President Obama, and the International Criminal Court. This evidence is available at The Wisdom Fund website.

I urge all patriotic Americans to join The Wisdom Fund in the Million American March in Washington, DC.

Enver Masud

Founder and President
The Wisdom Fund
